

NOTIFICATION OF AUDIOMETRY TEST RESULTS

ID: 901234567
 Name: Gordon, Richard
 Company: CBS Company
 Location: Indianapolis
 Department: Service

Gender: M
 DOB: 01/29/1954
 Badge:
 Operator:
 Version: 304

Audiometer Brand: Monitor Model: MI5000 S/N: 0123456 Calibration Date: 05/05/2013

	LEFT Current Test Results								RIGHT							
	500	1k	2k	3k	4k	6k	8k	500	1k	2k	3k	4k	6k	8k		
11/15/2013 11:30	20	25	30	30	50	60	60	25	35	35	45	60	60	60		
Age Corrected		14	18	8	18	23		24	23	23	28	23				

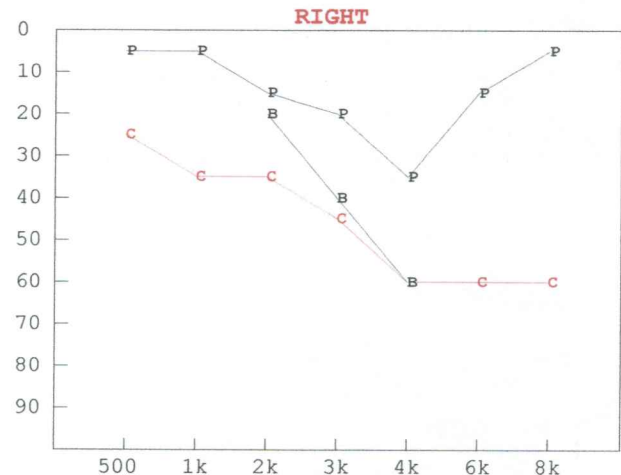

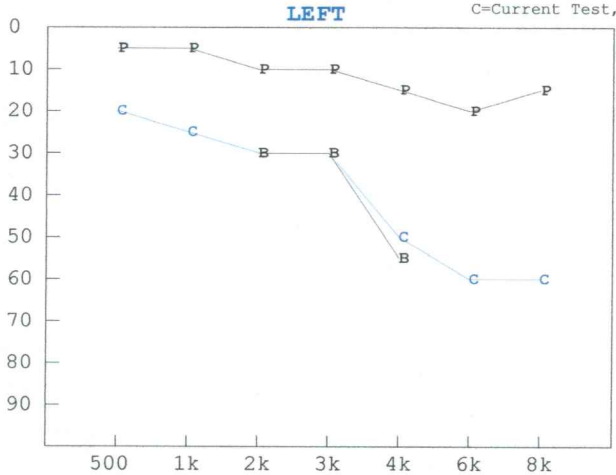

Note: Age corrected values used for STS calculations.

Your left ear hearing test results showed a mild hearing loss in the speech range (low and mid pitches) and a moderate hearing loss in the high frequencies (pitches). Your right ear hearing test results showed a moderate hearing loss in the speech range (low and mid pitches) and a moderate hearing loss in the high frequencies (pitches).

Your current test confirms a significant decrease in your hearing from your current baseline test in the amount defined by OSHA as a Standard Threshold Shift. In accordance with OSHA guidelines, it is mandatory that you wear hearing protection devices. You have had several decreases in your hearing over the last five years. These may have been caused by something other than noise exposure and medical evaluation is recommended.

Otoscopic screening (visual examination of your ears) was within normal limits.

This hearing test will be reviewed by a physician or an audiologist to determine if further follow-up is required. It is important to have your hearing tested annually in order to detect any changes in your hearing. To protect your hearing, wear properly fitted and maintained hearing protection when you are in a noise hazardous area, whether on or off the job.

Questionnaire for ID:901234567 Gordon, Richard

Questionnaire Date:07/20/2003 Time:8:30:00 AM

HPD Use

[Y]-Plugs 100% used when required
[N]-Muffs % used when required
[N]-Canal Caps % used when required
[N]-Combination % used when required

Last date of HPD training: [06/25/2003]
dBA 8-hour TWA noise exposure level: [90]
Last exposure to noise: [07192003]
Family member with hearing loss before age of 50: [N]
Hearing aid use in: [None]
Ringing in ear(s): [None]
Frequent or severe dizziness: [N]
Cold or flu within the last two weeks: [N]
Frequent allergy problems: [N]
Have a second job that is noisy: [N]
Current Ear Pain: [None]
Taken any medication or antibiotics in the last month: [N]
Under physican's care for ear problem(s): [N]
Past ear infections, earaches or drainage in: [None]
Current earache, ear drainage in: [None]
Previous ear surgery: [N]
Exposed to any loud explosions: [N]
Previous head injury causing unconsciousness: [N]
Listen to loud music or play in a band: [N]
Operated power driven farm equipment: [N]
Shot firearms - sport or military: [N]
Operated Construction equipment: [N]
Any noisy hobbies (motorcycles or power tools): [N]
Worked at a noisy job prior to current job: [N]

Have you ever had?

[Y]-Measles [N]-Scarlet Fever [N]-Diabetes
[N]-Mumps [N]-Meningitis [N]-High blood pressure
